MODEL 250 HYDRAULIC SYSTEM

*Varies with engine and options selected.

Bandit Model 200XP

- DUAL FEED WHEEL
- WIDE OPENINGS AVAILABLE

12" CAPACITY DISC-STYLE CHIPPER

PRODUCT OVERVIEW:

THE MODEL 200XP is our mid-range 12-inch disc-style chipper. This unit is slightly bigger than the 150, and features a 45" wide infeed tray opposed to the 35" infeed tray found on the 150XP. The 200XP is best suited for tree services that specialize in light tree removal and brush clean-up. The Model 200XP has become very popular among utility line maintenance contractors because of its rapid feed rate and wider infeed tray opening. Popular money making options like reversing auto feed, hydraulic lift cylinders, and a hydraulic winch will simplify your operation and reduce labor costs.

BRUSH BANDIT® IS THE INDUSTRY STANDARD.

Built to Last

All steel components on the 200XP are welded together for durability and longevity.

Slide Box Feed System

This system with down pressure springs eliminates the areas where material can hang up in the feed system.

Larger Infeed

The 200XP features a large infeed hopper opening of 29" high by 45" wide.

OTHER UNITS YOU MAY BE INTERESTED IN:
